REPUBLICANS IN CONTROL.

RESULTS OF THE CONSOLIDATING ELECTIONS IN SEVEN CITIES.

New York State Also a Majority on Joint Ballot for Republicans. Will Have One Less Democratic Senator Than for Extraordinary Session.

Pennsylvania, Ohio, Iowa, Minnesota, Wisconsin and Kansas Safe.

PHILADELPHIA, Pa., April 5.—[Special.]—The result of yesterday's election in Philadelphia, which gives the Republicans a majority of 125,000 in the consolidated city, is the most overwhelming victory ever achieved by the party in this city. The Republicans have elected their entire ticket, and have also secured a majority in both branches of the Councils. The vote was the largest ever polled in the city, and every person who is now on the registry list of voting in the city.

Today's voting proved very costly to Durham's cash in the payment of a forfeit of $500 that he posted with Mayor Stuart when he entered the contest. The forfeit was put up to secure the appearance of Durham's men at the polls in force, and it was declared by the Republicans that the money was lost because Durham failed to get out a full vote. The Democrats claim that the forfeit was not to be paid unless Durham's men voted illegally, and that they did not do. The Republicans claim that the money was lost because Durham's men did not vote at all.

The Republicans elected their candidates for Mayor, Recorder, City Treasurer, Receiver of Taxes, City Solicitor, Commissioner of Public Works, Commissioner of Public Buildings, Commissioner of Public Supplies, Commissioner of Highways, Commissioner of Wharves, Docks and Ferries, Commissioner of Public Safety, Commissioner of Public Charities, Commissioner of Public Health, Commissioner of Public Parks, Commissioner of Gas, Commissioner of Water, Commissioner of Electricity, Commissioner of Markets, Commissioner of Highways, Commissioner of Public Buildings, Commissioner of Public Supplies

WEDNESDAY, APRIL 19, 1893.

In the Lake Shore grant of 9,000 square feet of city real property Monday night in the Council only seventeen Aldermen were found on the side of the people. Of those seventeen the terms of five following are still unexpired. Monday, Hawkins, Wadewell, Conrad, Rathwell, White, McGregor, Johnson, Cheverdon, Ela, and Masterson. The record of these ten men will be taken by the Bohemian, Labor, Democratic, "Little Mac" Hyndes, etc. And yet the 7,000 signatures under the record of the recent election was to be the bulwark of reform.

An amendment now been proposed to the Constitution will give pending to the Senate which, if adopted, will do away with the power of having a vote of the people to determine that Brighton, Hyde Park, etc., shall be annexed to the city, they being now parts of South and West Chicago. It is provided that if a majority of the voters petition the County Court to the effect that they wish to be joined to the city the Court shall order the Council to accommodate them, and that the legislature, by ordinance, may accept them. As the Constitution will still continue to be a bar to their annexation, they should vote "No."

The Chicago money market has active and terms more firm at 6@7 per cent, the banks being but little business under it per cent. The demand for accommodation securities was light. New York exchange was quoted at par. Sterling remained steady at previous quotations. The stock market, while not active, developed some strength.—The Chicago produce markets were less active and strongest earlier, but with some reaction towards the close. Wheat was in fair demand in some quarters, but sellers were free. Corn was weak with May pork about a shade lower, lard was 10c cents higher, ribs 2½ cents higher for May cuts 5 cents lower, pork and ribs nearly, barley weak, and flaxseed 1 cent lower.

It might be well for Mr. Cregier to let Mayor Harrison alone till he has had a little broader political training. He is important enough to an interview that the next census will give this State probably about twenty-two Congressmen, or more than Illinois has. It will be entitled to twenty-two votes in the Electoral College which had been expected to the Chicago people which had been expected to the upper deck at once. These facts do seem to explain to a reporter why they should vote against the Columbian Fair. If they have to do, they have to vote, and when one decides and that by the further agreement to the Exhibition method, the best is given for in fighting against the best interests of his city and to speculate the evil of which he complains. He ought to know that the officers and to the like of which he is making such a record was honored before it is merely because there was no contest at that point. It is one of the peculiarities of running, of which this election affords more or less examples, that it carries with it the idea that the candidate who is defeated is the only one who has been honored and distinguished, and the State Journal, whose editor has received a cut and dried speech from the President, goes so far as to suggest that no credit is to be given the gentleman who has been elected by three large vote parts of South and West Chicago. It is plainly that if a majority of the voters polled the County Court to the effect that they wish to be joined to the city the Council to accommodate them, and that the legislature, by ordinance, may accept them. As the Constitution will continue to be a bar to their annexation, they should vote "No."

The Secretary of War not entering with Superintendent that the President does not desire Judge Gaff to be the sole political, there would be no reason to do Cleveland because of his vigorous enforcement of the laws. The operations of the Secretary in his suppression should be the strongest argument in his favor. It would be good politics at this season (notice to you Judge Gaff) and relieve the present uncertainty, who has been suggested for public to the satisfaction and position of the Army, and has necessarily placed him the hands of the Democratic polygamists. But that done is no further hope of that contest to be a Democratic State it might be well to remember the wrath of wiping out entirely. The Secretary should be the appointment of Judge Gaff.

There has been a general stampede on the part of Republican papers to swallow with the editor of the Philadelphia Press the report in the old Bay State, declared any Republican candidate, and that Butler Democrat, whose editor has received a cut and dry reply from the President, goes so far as to suggest that no credit is to be given the gentleman who has been elected by three large vote parts of South and West Chicago. It is plainly that if a majority of the voters polled the County Court to the effect that they wish to be joined to the city the Council to accommodate them, and that the legislature, by ordinance, may accept them. Hood's Sarsaparilla

Sarsaparilla Blisters

"The more I use Hood's Sarsaparilla the recovered power, and that proved to demonstration it is no ordinary spring medicine but is what it claims to be—a blood purifier. For children as well as grown people we consider it the best. We are never quite the same to rest in the spring. As a result of a course of Hood's Sarsaparilla we feel strong and well." C. C. Cowan, Tuscumbia, Ala.

Spring Weakness

"I have used Hood's Sarsaparilla in the most satisfactory manner for spring weakness. I had no appetite, and the least work I did tired me out completely. I began to take Hood's Sarsaparilla, and soon I could do as much work as I ever could, and more, without feeling tired. I recommend Hood's Sarsaparilla to my friends as a reliable medicine." C. C. Fellows, Editor Herald, Ogden, Utah.

Puppy Cut

"I had spring fever and was all run down. I had no appetite, and what I did eat did me no good. I was completely tired out. Hood's Sarsaparilla gave me an appetite, toned my stomach and satisfied the craving I had for something. It entirely cured me of that spring feeling." C. C. Cook, Watertown, Wis.

A Good Appetite

"Hood's Sarsaparilla gave me a good appetite, toned my stomach, and built me up generally. I have taken it at different times and always with good results. I recommend it to my friends." Wilmot G. Hoover, Elkton, Md.

Because there is nothing which is harmless, that will make things perfectly clean with so little labor in so short a time; besides, it is economical and makes the work easy.

Do you suppose—that anything could attain such popularity as PEARLINE enjoys, and hold it, without wonderful merit—that people would use it year after year were it harmful to fabric or hands—that the hundreds of imitations are attended by anything but its wonderful success?

You'll do well to use Pearline—see that your servants use it, and insist that they do not use the imitations which they are often induced to try because of the worthless prize accompanying it, or by the glib and false argument of some peddler.

Somewhere PEARLINE is a mere peddler. — JAMES PYLE, New York.
